Welcome to English Grammar 101. This online instructional series is a versatile program that can be used in various settings. It is an ideal companion for instructor-led learning environments, such as language arts classes, home schooling, alternative education, or ESL courses, and it can just as easily be used as a self-paced program for individual study. The series consists of 15 modules representing approximately 150 hours of classroom instruction. It is recommended that students have reading skills at the sixth grade level or higher.

English Grammar 101 incorporates the Common Core Standards now adopted by most states. Students learn and apply core concepts through simple, step-by-step instruction. They also receive immediate feedback from single-click answer checking and instant scoring. Each module includes a pretest, lessons, quizzes, reviews, and a posttest. Lessons and tests are automatically scored and can be viewed in the Student Records tab located in the teacher administration area.

With English Grammar 101, students learn grammar not just for grammar’s sake, but to become better communicators. The larger goal of the series is to help students develop written and oral communication skills while at the same time experiencing the rich nature of the language.
Create Your Class

Easily set up one or more classes with just a few clicks of the mouse. Simply give the class a name and an optional student registration code, and you’re all set.

Add Students to Your Class

Add students to your class by filling out a few form fields, or have students self-register by supplying them with a class registration code.

Assignments

Create assignments by selecting lessons, tests, or entire modules and assigning start and due dates.

Custom Course Builder

Build a curriculum to suit the needs of your students at their particular grade or skill level. Each module can be customized to include only those lessons that are relevant to the concepts you wish to teach.

Extra Credit?

Any lesson can be marked as “Required,” “Optional,” or “Extra Credit.” The subject matter in lessons marked “Required” is automatically included in the reviews, quizzes, pretests, and posttests. Lessons marked “Optional” or “Extra Credit” can be included in all the reviews, quizzes, and tests by placing a checkmark next to the lesson in the “Test” column.

Lesson Review

Enable or disable your students’ ability to review and/or resubmit previously completed lessons.

“Very impressive and teacher friendly!”
- Maryland Teacher
For the teacher:

- When creating a class, you can manually add students or provide them with a class registration code so they can self-register
- Design a custom curriculum in Course Builder, or simply allow students to begin in Module 1, Lesson 1, and work through the series
- Assign pretests to assess preliminary understanding, and posttests to measure outcomes
- Assign custom courses or preselected lesson plans to a class from the Assignments tab
- View class progress at a glance across all modules
- See scores and view or print individual record details on a per lesson basis

For the student:

- Easy class registration
- View assigned lessons
- View lesson start and/or due dates, if assigned
- Select a lesson and begin learning with easy-to-understand content and comprehensive practice questions
- Instantly check answers with a single click
- Students receive a score and lesson mark-up after each exercise, guiding them along the path to mastery
- Track progress of completed and in-progress lessons
- Repeat practice exercises to reinforce concepts and improve scores
- View scores on the student dashboard

“The ability to track my students’ progress and to see where they are struggling is priceless”

- California Teacher
